

Sutton Elected to Green Building Association Board

William J. Sutton, II, LEED® AP, has been appointed to the Board of Directors of the Green Building Association of Central Pennsylvania. Sutton is a Project Manager at Wohlsen Construction Company, and chairs Wohlsen's Sustainability Initiatives.

Sutton is a graduate of Catholic University of America and serves as regional chair of Future City Central PA, Keystone Chapter of ABC Green Building Committee, and is an active member of the Harrisburg Young Professionals.

The mission of the Green Building Association of Central Pennsylvania is to promote environmentally responsible design, planning, construction, and operation of the built environment through education, outreach and networking.
