

Wohlsen Construction Earns National Award For Excellence in Construction

Associated Builders and Contractors (ABC) announced that Wohlsen Construction Company has earned an Eagle Award for its work on the Transfer Station Improvement Project at the Lancaster County Solid Waste Management Authority in Lancaster. The award, in the Pre-Engineered Building category, was presented to Wohlsen Construction executive vice president Dave Brodie on February 4 during the 20th annual Excellence in Construction Awards celebration in San Diego, CA.

“ABC congratulates Wohlsen Construction for its exceptional work on the Transfer Station Improvement Project,” said Kirk Pickerel, ABC president and CEO. “This project is an outstanding example of the innovation and commitment to superior craftsmanship that embody merit shop construction. It is a pleasure to honor this project with the association’s top construction excellence award.”

The Excellence in Construction awards program is the industry’s leading competition, developed to honor innovative and high-quality merit shop construction projects and safety programs. The winning projects, selected from entries submitted from across the nation, were judged on complexity, attractiveness, unique challenges overcome, completion time, workmanship, innovation, safety and cost.

Founded in 1890, Wohlsen Construction Company is a leading construction services company in the Mid-Atlantic States of Pennsylvania, Delaware, Maryland and New Jersey. Wohlsen’s team combines the benefits of technical expertise, passion for performance and outstanding attention to customer satisfaction to deliver a full-range of construction services from pre-construction planning through post-construction assistance.
